NOTE: These instructions are being set forth in an effort to come up with
direct evidence which will link suspects in the burglary of the Media Resident
Agency with the crime itself. The two latent palm prints are as yet unidentified
and possibly palm prints could be obtained from some of the primary suspects
by subterfuge since most would not furnish same voluntarily. 4/0/2

NOTE: Through arrangements with the Xerox Corporation we have identified
Model 660 copier as being the model used by subjects. Six field divisions have
been instructed to obtain copies from Model 660s in an attempt to identify the
exact machine that was used. Because of the volume of machines to be examined,
it is imperative that each field division set up a system of investigative
priorities. It is expected that some of the organizations contacted will be
uncooperative. This is the best evidence which can be developed and we are
seeking the cooperation of persons to be
contacted who will make their machines
available on a voluntary basis.

NOTE:

Through the cooperation of Xerox Corporation we have been submitting Xerox copies of the stolen FBI documents and other similar evidence directly to our Rochester RA, Buffalo Division, for immediate examination by Xerox Corporation in order to determine what Xerox equipment was utilized to prepare same. U

This examination has resulted in determining one Model 660 has been utilized to prepare many copies of the stolen documents. This particular copier has a defect which will allow copies made by it to be identified. In this regard, we are obtaining samples from that model copier in Newark, Philadelphia, Boston, New Haven, WFO, and Baltimore. The Laboratory has been advised of the markings peculiar to the machine in question and is capable of making a comparative examination here, thereby, alleviating the necessity of sending this voluminous material to the Xerox Corporation for comparison. Accordingly, the field is being advised. U

This has been cleared with Mr. Don Stangel, Laboratory Division. U

To set up a better guard against future theft and misuse of Bureau documents, we suggest that the Director recommend to the Attorney General that the Department sponsor enactment of legislation similar to The Official Secrets Act which is a part of English law. If we had such an act at this time it could be used against any person or organization, including the news media, which misused the data or failed to return upon demand. U

We may as well assume that elements of the type involved in the Medburg burglary will make further attempts to obtain FBI documents. These attempts will not necessarily involve burglary. The thefts may be accomplished by stealing from the mails or in some other way. Each such theft could result in publicity such as that which appeared in the "Washington Post" of March 24, 1971. U

The Official Secrets Act of Great Britain is in three parts. The Act passed in 1911 is basically an espionage statute, similar in many respects to our own. The Act of 1939 extended all official secrets acts to Northern Ireland. The act which prohibits the type of activity in which the Bureau is now interested is The Official Secrets Act of 1920. Without restating the entire act, which is rather long, it creates a criminal offense on the part of any person who "retains for any purpose prejudicial to the safety or interests of the State any official document, whether or not completed or issued for use, when he has no right to retain it, or when it is contrary to his duty to retain it, or fails to comply with any directions issued by any Government Department or any person authorized by such department with regard to the return or disposal thereof." [redacted] of the "Philadelphia Inquirer," Philadelphia, Pennsylvania, called my office on the afternoon of March 30, 1971, and spoke to Bland. [redacted] asked what legal procedures and what right the FBI had to obtain bank records and telephone company toll call information in connection with FBI investigations. In addition, [redacted] asked how often such activities on the part of the FBI take place, if such is a common practice in many cases or only utilized in a few cases. [redacted] was advised that the FBI would have no comment whatsoever to make in this matter. [redacted] stated that he wanted the legal justification for such action by the FBI. He was advised if he had a legal question he should refer such question to the Department of Justice and/or its representative--the United States Attorney. U

[redacted] was quite persistent in his questions, asking for the full name and title of Bland and became quite indignant when he could not get a comment from the FBI. [redacted] did not verbally tie his questions in with the revelations that have come from the documents revealed as a result of the Media Resident Agency burglary; however, it was quite obvious that his questioning stemmed from this matter. Reference is made to my memorandum of 3-29-71 in which it was reported that Ken Clawson of the Post had picked up a rumor from the Department to the effect that the FBI did not alert the Department of Justice to the extent or potentialities of the Media theft until after the documents had been surfaced. U

Last evening Clawson advised that this rumor had been checked with the Attorney General and the Attorney General pointed out emphatically that the FBI had not delayed informing the Department concerning the captioned case. Clawson said, therefore, that the Post would not run a story. U

In this connection I had talked to [] in the Department regarding the rumor that Clawson had picked up and pointed out to him that the matter should be brought to the Attorney General's attention so that he would be aware of the circulation of this false report. U

The following summarizes current investigation into the March 8, 1971, burglary of the Media, Pennsylvania, Resident Agency. A group calling itself the Citizens Commission to Investigate the FBI has claimed responsibility for this burglary which resulted in the theft of FBI documents. *U*

XEROX EXAMINATIONS: Examination of documents distributed by the Citizens Commission to Investigate the FBI disclosed distinctive markings which may enable us to identify the copier which was utilized. A facsimile of these markings has been transmitted to each field office involved; and investigation has been intensified, particularly in the Princeton, New Jersey, and Philadelphia, Pennsylvania, areas to locate the Xerox machine. *U*

MATERIAL RECEIVED BY WASHINGTON BUREAU, "NEW YORK TIMES,"
3-31-71: Assistant Attorney General Mardian, Internal Security Division, advised word had been received by the Department from a Washington Bureau representative of the "New York Times" indicating additional stolen FBI material had been received by that Bureau. Upon approval, Washington Bureau, "New York Times," was contacted yesterday and furnished an envelope which was received by the "Times" in New York on March 30, 1971, from "Resist," postmarked March 24, 1971, at Cambridge, Massachusetts. The envelope contained a mimeographed or multilithed letter; a Xerox copy of the letter from the Citizens Commission to Investigate the FBI; and copies of 12 serials stolen from the Media Resident Agency. The Commission letter and 12 serials were identical to those previously received by other news media, Senator McGovern, and Congressman Mitchell. Examination of this evidence is being conducted. The Internal Security Division has been advised of details. *U*

"RESIST": Through various sources, it appears "Resist," a self-described group of draft exempt individuals primarily from the academic and intellectual community who pledged themselves to organized draft resistance unions to supply legal defense and bail and otherwise aid resistance to the war, is acting as an intermediary in the dissemination of some of the stolen FBI material. Full facts have been furnished the Internal Security Division concerning its activities

Q111 Accompanying copy of typewritten letter dated 3/31/71,
beginning "On March 8th, the Citizens Commission..." U

Result of examination:

The typewriter impressions on Q100 through Q111 most closely resemble the Laboratory standards for Royal Elite Merit style of type. This style of type has not been used on questioned specimens previously submitted in this case. U

The copies of the typewritten letter are electrostatic copies. This copy process is used by twenty-seven companies in the United States on several models of each company. These copies do not contain the characteristic markings of questioned specimens received from Xerox 660 models. U

The envelopes, Q102, Q104, Q106 and Q110 are United States Post Office envelopes. The stamps on Q100 and Q108 are from sheets of stamps. The envelopes, Q100 and Q108, and the copies of the typewritten letter contain no watermarks or indented writing of value. U

The submitted evidence was searched through the appropriate sections of the Anonymous Letter File without identification. U

The submitted evidence will be returned separately. Photographs are retained. U

Original of envelope, address "Senator GEORGE MC GOVERN" PM 3/19, Princeton, New Jersey. No Xerox copies enclosed as not conducive to Xeroxing. U

All of the above enclosures were furnished on 3/22/71, to SA [] by [] Legislative Assistant to GEORGE MC GOVERN, U.S. Senator, South Dakota. [] stated that the enclosures were received in the Senator's office through routine mail channels at the Old Senate Office Building at about 3:30 p.m., instant date. He stated he is not certain whether the enclosed envelope is the envelope in which the documents were sent; however, believed it to be and could locate no other envelope with the mail or elsewhere. U b6 b7C

Subsequent to the furnishing of the above, [] telephonically contacted WFO and advised that his office had inadvertently furnished a Xerox copy of the letter from the Citizens Committee to Investigate the FBI and retained the original. He stated that his office was closed, but the original could be obtained after 9 a.m., 3/23/71. U

REQUEST OF THE FBI LABORATORY

1. Upon receipt of original letter from Citizens Committee, attempt to determine make of typewriter, make of ribbon, kind of type, and any other identifying characteristics of letter. U
2. Compare printing on enclosed envelope with any printing on documents previously submitted in this case. U
3. Upon completion of tests will forward all documents to FBI Identification Division for processing for latent fingerprints U

Q13-Q32

On 3-22-71, Harrington Wood, Jr., of the Department called and said that he had been contacted by Congressman Parron J. Mitchell (D-Md.) who thought that he had some documents which had been stolen from the FBI. U

Inspector Harrington contacted Congressman Mitchell immediately at his office. Mitchell said that Friday afternoon he found two documents outside the door of his Baltimore office located in Room 1813, Federal Office Building. These documents consisted of a newspaper clipping regarding captioned case and the news release put out by the Citizen's Commission to Investigate the FBI. U

710323001

At approximately 1 p.m. on Sunday 3-21-71, he received a phone call at his home. He could not remember the exact conversation but thought he was asked if he would be at home and upon replying that he would be for the entire afternoon he was told that a package would be delivered to him involving the material he had received at his office Friday. Approximately one and one-half hours later his doorbell rang. Upon answering, no one was at his door but he found a brown envelope containing what appeared to be Xerox copies of several of the documents stolen on captioned case. The Congressman said he resides in a ghetto apartment, number 6, on the second floor and that there is no superintendent or other person who would have seen anyone coming to his apartment door. He recalled the voice on the telephone was female and that she had "good diction" but he could recall nothing distinctive and had no idea who the caller might have been. U

Congressman Mitchell said that he was an avowed supporter of Peace in Vietnam and had long supported actively Black civil rights programs and organizations. He assumed that this was the reason he was selected but felt that since these were copies, similar documents might be distributed to many other persons. U

M. A. Jones to Bishop Memo
R.E: MEDBURG

The Congressman did not have the brown envelope with him at his office but said it was still at his apartment in Baltimore; however, he was leaving for Pittsburgh today but would have the envelope at his office on Wednesday at which time it could be picked up. The Congressman said there would be no difficulty for these people to contact him since his telephone number is listed in the Baltimore directory. The Congressman stated that he had handled all the documents as had all the members of his staff. He stated further that he had retained copies of the documents. (Staples in documents apparently are not original staples he received.) To avoid any further contamination the documents were not examined by Herington in the Congressman's presence. The Congressman was asked if he would object to having his staff fingerprinted should it be necessary for elimination purposes. He said he assumed most of them or all of them had been fingerprinted because of their employment; however, he would have to consider further whether he would agree to having them fingerprinted again since he was not enthusiastic about such procedures. U

RECOMMENDATION:

That FBI Laboratory examine these documents for any information which might be of assistance and also process for latent fingerprints. Results should be furnished to General Investigative Division. (Original specimens hand delivered to the Laboratory.) U

MEMORANDUM FOR MR. TOLSON

MR. MOHR
MR. BISHOP
MR. CALLAHAN

MEDBARS

I called SAC Joe David Jamieson at Philadelphia and advised him I was getting a great deal of mail in regard to this fellow [redacted] of the Media Resident Agency). I said the other day a letter came in from a Federal Judge and I instructed that he, Jamieson, see the Judge and asked if he had seen him. Mr. Jamieson said he was seeing him in the morning. I said today there have been at least four or five more letters from Police Chiefs, all saying that they think [redacted] is absolutely the best man we ever had and he could not have done anything wrong, et cetera. I said I am putting on those letter for Mr. Bishop to have him, Jamieson, see these individuals who have written to me. I said they are people prominent in law enforcement and I want him to give them a complete rundown on the jam [redacted] has gotten us into. I said we are getting hell from every angle in regard to the robbery at Media, and if he had done his job as he is supposed to do and as Mr. Felt said when he went into it, all the documents would have been in the safe and not stolen. I said he failed to do that and for that I have taken as lenient administrative action as I can. I said he should have been fired and gotten rid of entirely, but in view of his long service, I decided to suspend him for 30 days and transfer him. I said I surmise he is in back of many of these letters. Mr. Jamieson said he did not believe so as he does not have that attitude and he has known them for a long time and they think they will help. I said in reading the letters, the language is much along the same line as if written by the same person. Mr. Jamieson said he thought those law enforcement groups ask each other to write.

b6
b7c

I said we will send him the names and I want him to tell them exactly what he did and the mess he has gotten us into. I said we are getting bomb shells from Congress, magazines, columns, and everything else as being the one great weakness of my administration of the Bureau that this burglary took place. I said if [redacted] had done his job it would not have happened as he failed to have

Memorandum for Messrs. Tolson, Mohr, Bishop, Callahan April 5, 1971

the papers locked up as all could have been locked up and there was no reason for them to be in the desk where they could be taken and given out and exposed publicly, but I am getting fed up on the total innocence of [] and my being harsh on him and lacking of consideration, as he is getting off easy as he was not dismissed because the dereliction is of the most serious type that could have taken place and we would not have this mess and embarrassment if he had done his job as he should have. I said I took the least extreme action I could by merely suspending him and transferring him. Mr. Jamieson said I was very considerate. I said I should have dismissed him with prejudice as it would have been warranted but I gave consideration to his length of service and he did not pay attention to the security of the Media office. I said we are now faced with security all over the country and having to buy machinery and burglary arrangements which we would not have had to do if [] did the job as he should have. U

b6
b7c

I said they are all courteous letters but think I should have shown greater compassion and I don't think he is entitled to any for letting me down as he did for failing to fulfill his duties as he should have as Senior Resident Agent at Media. I said we are going through a study to see if we can't abolish a great number of the Resident Agencies because of his failure to do his job as Senior Resident Agent. I said I have always thought there was a need for Resident Agencies, but security comes first and if we have Senior Resident Agents who do not give a damn for security, we have to close the offices and put them in the headquarters offices and that means more travel and more expenses, but [] brought this about by his failure to do his job and it makes me irritated to have them tell me to be more compassionate and let him remain. I said he is going to Atlanta or get out. Mr. Jamieson said he would personally see every one of them. U

I told him the names would be sent to him in a few days and to see the Judge tomorrow, and he wrote a decent letter, but he is sold on the fact that [] could do no wrong and there have been three or four letters today and there will probably be others, all with the same thought - [] could do no wrong and he is one of the best Agents and is really an 18-carat diamond as an Agent. U

Memorandum for Messrs. Tolson, Mohr, Bishop, and Callahan April 5, 1971

I said I don't consider him that as he let me down and I am getting the butt of criticism nationally that ought never to have come about if he had carried out his functions properly and if he, Jamieson, had carried out his functions by checking the Resident Agencies and he, Jamieson, has been put on probation for this. I said all SACs have to run a tight ship where anybody intentionally or unintentionally does anything wrong is held accountable. I said I don't think [] did anything intentionally wrong, but he did not think about security as he should. U

b6
b7c

I told Mr. Jamieson I wished he would see these people and explain why I had to take the action I did and he is fortunate to have a job. Mr. Jamieson said he would do that. U

Very truly yours,

DATE: 4-2-71

FROM : T. E. Bishop

SUBJECT:

"WALL STREET JOURNAL"
PHILADELPHIA, PENNSYLVANIA
INQUIRIES REGARDING CONFIDENTIAL INFORMANTS

MED BUREAU

The above captioned individual telephonically contacted Bishop from Philadelphia, Pennsylvania, at 2:00 p.m. on 4-2-71. He stated that in connection with a story he was writing, he wished to ask for some information from the FBI. He then proceeded to ask the following questions: (1) how many confidential informants does the FBI have; (2) what guidelines does the FBI have for the developing and managing of confidential informants; (3) he stated that an individual who claimed to be a Bureau informant testified some time ago in a trial in Seattle to the effect that he had "broken the law by taking drugs." wished to know what disciplinary action was taken against this individual. U

When asked what prompted to make inquiries like this, he stated that he was prompted by information obtained as the result of the break-in at the FBI office in Media, Pennsylvania, and the FBI documents released to the press thereafter. Bishop told that the FBI would have no comment to make whatsoever in answer to the inquiries posed by him. U

FOR IMMEDIATE RELEASE

23 March 1971

The Black Economic DEVELOPMENT Conference commends the courage of the Citizens Committee to Investigate the FBI for the exemplary March 8th liberation of FBI files in Media, Penna. The FBI practice of snooping into the lives of private citizens should and must be opposed as morally reprehensible, constitutionally illegal, and fiscally irresponsible. For too long, J. EDGAR HOOVER, Attorney General John Mitchell, Richard M. Nixon and others of their kind have squandered taxpayers hard-earned dollars to pay two-bit informers, to tap private telephones, to hire agent provocateurs and to purchase Mission Impossible type electronic surveillance devices. U

1. We are not at all surprised that the FBI keeps extensive files on BEDC and many of our members. It is the nature and purpose of law enforcement and investigatory agencies in a racist and capitalist country to protect property and suppress BLACK people, as sociologist, Gunnar Myrdal noted a quarter of a century ago. U

It is particularly important for the U.S. government to attempt to subvert organizations like BEDC that not only fight America's domestic racism and economic exploitation, but have worked internationally to forge links with Black revolutionists in AFRICA, the Carribean and Latin AMERICA, who have extended the hand of friendship to progressive people on the European continent; and who have helped to create direct relationships between between Afro-americans and Vietnamese liberation fighters (the so-called VIETCONG). U

Furthermore, we see a pattern of efforts to destroy BEDC and BEDC leadership both locally and nationally. U

In May, 1969, the U.S. GOVERNMENT attempted to indict Jim Forman, BEDC and the League of Revolutionary Workers before a federal grand jury in Detroit in response to our issuing the Black Manifesto. The government failed. U

In the late summer and early fall of 1969, another effort to railroad an indictment before a federal grand jury was personally instigated by Atty. General John Mitchell. This time the scene was South Bend, Ind., and the targets were Muhammad Kenyatta and Woody Woodland. The government failed again. U

Chairman Herman Holmes of BEDC in CHICAGO was charged last year with attempted postal theft although he had been a long-time postal employee with an impeccable record. The court implied belief in Holmes' innocence but gave him a suspended sentence, placed him on a four-year probation and instructed him not to associate with

Black activists, dissenters, etc.'

Also, last year Ralph Featherstone of the Drum and Spear Bookstore and William CHE Payne of BEDC were both killed in a car explosion that seems to have been an attempt on the life of H. Rap Brown. U

Again last year in Houston, Texas, Carl Hampton of Peoples' Party II, an activist in the reparations movement in Houston was gunned down by policemen. U

This year, we are witnessing in Philadelphia a witchhunt by the Police Commissioner and the DISTRICT Attorney's office who are attempting to falsely implicate BEDC in the recent North Philadelphia police slaying. We are also witnessing the refusal of the D.A. Office to nullify proceedings against six adult BEDC members on bogus burglary charges stemming from an August, 1970 demonstration at the Philadelphia Presbytery. The D.A.'s office has continued prosecution in spite of having received official notice from the Presbytery to drop all charges. U

THE pattern is clear. BEDC is an enemy to racial repression exploitation and war. BEDC has spurred cooperative economic ventures such as our totally independent printing operation. BEDC has kept scores of Puerto Rican and Black youths out of the death-trap Army through legal counselling. BEDC has challenged the dope-pushers and their police accomplices. BEDC has triggered new militancy among Black churchgoers. U

Thus, the FBI and its local counterparts seek to spy on us, infiltrate us, denigrate us and destroy us. They will fail to stop us as they have failed in the past. U

We are not surprised that the FBI has negroes to mouth militant rhetoric to spy on BEDC. We have known this for some time. We must view it as a predictable excrescence of a putrid social system. U

The phenomenon of Negro agents in America should be no more unexpected than the phenomenon of General Ky collaborating with American-sponsored genocide of VIETNAMESE people or Tshombe assassinating Patrice Lumumba to assist European colonialism in the Congo. But it should be clear that such agents and collaborators shall certainly share in the defeat and death of their white masters much more abundantly than they have shared in the crumbs from masters table. U

With specific reference to the Washington Post report on BEDC financial records, let us point out that any claim of a \$1,000 clothing allowance is a deliberate lie. What is true is that BEDC received a gift of \$1,000 with which we purchased a used car at that time. U

However, the information concerning BEDC expending funds to help defray the hospital costs of needy people and giving assistance to community programs is accurate. We are a people's program and our financial records prove that we have given our utmost to serve our people, as the FBI knows very well. U

Another specific point deals with Daniel McGonigle, Cashier of the SOUTHEAST National BANK IN Chester. We know that D. McGonigle actively collaborated with the FBI and volunteered information to the FBI in much the same fashion that "good Germans" volunteered information to the Gestapo concerning their Jewish "fellow citizens". He is not the innocent pawn he pretends to be. U

We also would call attention to the incredibly stupid bungling of the FBI that led them to investigate and possibly tap the telephone of Mr. William A. King of CHESTER while trying to ascertain the telephone number of Muhammad Kenyatta when Kenyatta's phone was publicly listed and prominently displayed on BEDC stationery. Such Keystone Kop incompetence would be comic if we were not aware of the deadly sub-surface machinations of the FBI. BEDC will defend Mr. King in any way possible against this abridgement of his right to privacy. U

Finally, many will ask how did BEDC get those documents? how long has BEDC had them? and so forth. However, the people's intelligence system is not the issue. Let it suffice to say that revolutionary information networks are growing all across America. Both sides can play the "I spy" game. U

Remember, "Blessed are you when men shall persecute you and speak evil against you falsely for the Lord's sake." U

Or, in the words of a modern-day prophet, "To be attacked by the enemy is not a bad thing, but a good thing". U

Our cause is just, our hands are clean. Our inevitable triumph is the liberation of our people. U

Two of the principal suspects developed thus far in our investigation into the Media, Pennsylvania, Resident Agency break-in of March 8, 1971, are whose husband was convicted for the attempted burglary of the Rochester Resident Agency last fall and known activist and Berrigan supporter. Philadelphia is maintaining round-the-clock surveillance on these two individuals. *U*

Both reside in adjacent Philadelphia communes which are extremely difficult to surveil from stationary vehicle due to the character of the neighborhood. A suitable apartment has been located almost directly across the street from the communes from which a satisfactory surveillance could be conducted. This apartment is available for rent for \$165 monthly. A \$365 advance security payment is also required. *U*

speakers to the school. In early October 1970, — invited — to talk on campus and he did not clear this invitation with the school administration beforehand. As a result the administration felt they received undue publicity over — appearance.

— also has conducted — discussion groups on the topics of — which are supposedly open to the public and this action has not been approved by the school administration although it is regarded as action on his part over and beyond his authority in altering the course curriculum.

MRS. — stated — is generally regarded as a "radical" for this and similar type action.

MRS. — was shown the wanted flyers on the subjects and she stated she is certain she has not seen them around that school. She will remain alert for any information concerning them.

MRS. — will also confidentially furnish pertinent information regarding any long distance telephone calls made or received by —. She checked her slips for long distance calls made from the college for the past month and noted that none were listed as being made by —.

CHIEF — was contacted in this matter and shown wanted flyers on the subjects. He stated that these did not look familiar and he does not recall having seen them at or around the — residence. He noted that the

— live 2 houses away from him and that his house is situated such that he can observe the — residence from the front of his house. He said he is certain that no one other than the — reside at this residence although a number of — students visit there frequently. He recalled that during the past summer the — held a "rock festival" in their back yard attended by more than 50 college age youngsters. The Chief was required to break this up when it got too loud but this is the only occasion he has had to contact the — in police business.

The Chief noted that the garage to the rear of the — residence has been converted into a printing shop and it houses enough equipment to publish a newspaper. He does not know that a newspaper is published there but he is keeping a close eye on the garage to ascertain what activity takes place there. He said a leaflet was printed there several months ago and that this leaflet called for support for the — scheduled for trial in — 1970.

The Chief is certain that no one lives in the garage but he has seen "hippie" types frequent the garage. He will remain especially alert for the appearance of the subjects, and he will contact his sources and alert them concerning the subjects.

On 11/17/70 MR. — Postmaster, U.S. Post Office, — was contacted in this matter. He was furnished copies of wanted flyers on the subjects and requested to contact his carriers to

alert them as to the appearance of the subjects in —. MR. — also stated that contact with the carrier who handles the — residence on — reveals that he has no recollection of mail coming to that residence addressed to other than the —. Also this carrier is certain that no one other than the — reside there.

MR. — stated he would remain alert as to any mail to or from the — residence which might be significant in this case.

Re WFO letter to the Bureau dated 11/27/70; Bulet dated 12/9/70; and Philadelphia letter to the Bureau dated 1/19/71

Referenced WFO letter states Subject is believed attending the University of California at Berkeley, and is known to be an inveterate Marxist revolutionary, and a type of a person that should be watched as she will probably be very active in revolutionary activities.

The 1970-71 University of California at Berkeley (UCB) Student Directory lists — as a senior in the College of Letters and Science at UCB and residing —. Her home address is listed at —.

The cross reference directory for the Berkeley area lists the occupant of — as —. His phone — is not listed in the 1971 UCB Student Directory, nor is he listed as an instructor in the 1970-71 UCB Campus Directory.

Sergeant HARRY POTTER, Berkeley Police Department, advised his records contain no information concerning either Subject or —.

Sergeant BOB HILL, UCB Police Department Intelligence Unit, advised his files contain no identifiable information concerning Subject or —, however, he will remain alert for any activity of Subject on the UCB campus.

On 2/1 71, CLINTON L. GILLIAM, Registrar, UCB, advised his files indicate — was admitted to the University of California at Berkeley in the month of March, 1970, and as of the period ending December, 1970, had completed two quarters in the College of Letters and Science. Her chief subject of study is listed as —. Due to the policy at UCB, no additional information regarding the Subject can be released without the written release submitted by the Subject or the issuance of a subpoena duces tecum.

San Francisco indices reflect Subject attended a meeting of the Venceremos Brigade on — at — Oakland, California. This meeting was covered by SF 2231-S (reliable source) who stated Subject was one of many persons who turned down on their applications to be members of the Fourth Contingent of the Venceremos Brigade. During this meeting, there was no discussion of violence or revolution. San Francisco

source personally conversed with Subject and received no indication that she was anything other than the average liberal minded student that is common in the Berkeley area.

On 2/5 71, SF 3427-PSI, who is familiar with radical activities in the East Bay Area, advised Subject is completely unknown to him.

Due to lack of information and activities of Subject, San Francisco is not submitting a summary report at this time. Subject is not being recommended for inclusion on the Security Index as it is felt additional investigation is acquired before this evaluation can be reached.

Banks, Ma Bell, and the FBI

On 5/20/70, Mr. DANIEL Mc-
GRONIGLE, Cashier, Southeast Na-
tional Bank (formerly Delaware
County National Bank), 4th and Mar-
ket Streets, Chester, Pa., advised that
as of 1/1/70 the Delaware County
National Bank merged with several
Chester County banks to form the
Southeast National Bank.

Subsequent to this merger, this
bank instituted a new computer sys-
tem for checking accounts. Under this
system all checks drawn on active
checking accounts are recorded on
microfilm and available for review at
the Computer Center of this bank
at 24th and Edgmont Avenue, Ches-
ter, Pa.

Mr. Mc GRONIGLE stated there
is a current, regular checking account
at that bank in the name National
Black Economic Development Con-
ference, Pennsylvania Office, 217 Con-
cord Avenue, Chester, Pa. There are
two persons authorized to sign checks
on this account and they are ---.
As of 5/20/70, the balance in this ac-
count was \$44.32.

On 5/20/70, Mr. ALLAN FERGUSON, Executive Officer, Computer Center, Southeast National Bank; 24th and Edgmont Avenue, Chester, made available for review copies of the statement for checking account #550 723-1; which is in the name ---.

These statements dated 3/16, 4/15, and 5/15/70 reflect activity on this account during the 30-day period prior to the date of this statement. A review of the statements reveals the balance in this account has ranged from a high of \$1,948.56 on 4/9/70 to a low of \$38.19 on 5/14/70.

Mr. FERGUSON stated it is not possible under their computer system to identify the nature and source of deposits and credits to this account. He would, however, make available for review the microfilms containing checks drawn on this account during the periods covered by the above statements.

A review of these checks reflects almost all are signed by --- and made payable to cash. All of these checks have a space on the face of the check after the word "for" in which is written the purpose of the check. On the vast majority of these checks the notation in this space contains such language as "operating expenses," "clothing allowance," "maintenance expenses."

An average of 15 to 20 checks were drawn on this account for each of the three months reviewed. Among these checks the following are noted:

Check dated 3/8/70 in the amount of \$300, payable to --- for hospitalization of ---.

Check dated 1/5/70 in the amount of \$100, payable to ---.

Check dated 3/5/70 in the amount of \$100, payable to --- for grant to ---.

Check dated 5/8/70 in the amount of \$144.95, payable to Bell Telephone Company for phone ---.

Check dated 5/13/70 in the amount of \$50.00 made payable to --- for emergency grant.

Check dated 5/14/70 in the amount of \$1,000 made payable to cash for clothing allowance.

LEADS PHILADELPHIA:

New Left Notes — Philadelphia

This newsletter will be produced at irregular intervals as needed to keep those persons dealing with New Left problems up to date in an informal way. It is not a serial and is considered an informal routing slip. It should be given the security afforded a Bureau serial, classified confidential, but may be destroyed when original purpose is served.

The New Left conference at SOG 9/10-11/70 produced some comments:

In disseminating reports recommending for the SI it is preferable to designate and disseminate to Secret Service immediately and put the FD-376 (the buck slip to Secret Service) on the second Bureau copy.

There was a pretty general consensus that more interviews with these subjects and hangers-on are in order for plenty of reasons, chief of which are it will enhance the paranoia endemic in these circles and will further serve to get the point across there is an FBI Agent behind every mailbox. In addition, some will be overcome by the overwhelming personalities of the contacting agent and volunteer to tell all — perhaps on a continuing basis. The Director has okayed PSI's and SI's are 18 to 21. We have been blocked off from this critical age group in the past. Let us take advantage of this opportunity.

In payments to informants, if the total of services and expenses to an informant is less than \$300 in a lump sum payment or per month, our request for such payment is handled within division 5. If the lump sum

payment or monthly authorization is \$300 or more, it must be approached on a much higher level. *Note:* If an informant is to travel outside our division and we initially go in and request expense payment of less than \$300, it can be handled simply while the services payment can be requested later based on what he has produced.

Subject: SOVIET INTELLIGENCE SERVICES
RECRUITMENT OF
STUDENTS

Re Bureau letter, 6/13/69, and WFO letter, 7/22/69, both captioned "Soviet Intelligence Services Recruitment of Students; IS - R."

Enclosed for the Philadelphia Office are negative and four copies of a photograph of the subject obtained from the Passport Office, United States Department of State (USDS), Washington, D.C.

The subject registered with the American Embassy, Moscow, Union of Soviet Socialist Republics (USSR), as an American citizen visiting the USSR. The registration card was received from the USDS along with other registration cards, classified "Confidential."

For the information of the office of origin, the Bureau instructed that students, teachers, and scientists who were in the USSR at least one month who have not previously been investigated should be selected for investigation. Specifically, the Bureau instructed that United States passport records be checked regarding the individuals meeting the criteria and the information be forwarded to the office covering the residence for further investigation pursuant to current Bureau instructions as outlined in Section 105-G, Manual of Instructions. The office covering the subject's residence is being designated office of origin.

The purpose of conducting investigation concerning the individuals who meet the criteria of student, professor or scientist who visited the USSR for at least one month is to

identify them and determine whether any of them have been approached for recruitment by the Soviet Intelligence Services. The office of origin should consider the Soviet objective of recruiting American citizens who either now or at some future date, will likely be employed by the United States Government or strategic industrial facility. Interviews of these individuals should only be done after Bureau authority to conduct the interview has been obtained.

Upon receipt of Bureau authority to interview a particular individual under this program, the interviewing Agents should delineate to the individual the Bureau's responsibilities in the field of internal security, espionage, and related matters. The interviewing Agents should discreetly ascertain if any attempts have been made by the Soviet Intelligence Services to recruit the individual for intelligence purposes either in the USSR or after his return to the United States. The individual should be alerted to the importance of immediately notifying the Bureau of any Soviet attempt to contact him.

Utmost care must be exercised in conducting these investigations to prevent any embarrassment to the Bureau and possibly jeopardize the Bureau's program in countering Soviet Intelligence Services recruitment of students. The motives of the Bureau in investigating American students, professors, and scientists must not be construed as infringements of the American educational system and the pursuit of intellectual freedom.

Set forth in the following pages is background information obtained from the registration card and from the records of the Passport Office, USDS.

**BLACK STUDENT GROUPS ON
COLLEGE CAMPUSES
RACIAL MATTERS
BUDED: 12/4/70**

Increased campus disorders involving black students pose a definite threat to the Nation's stability and security and indicate need for increase in both quality and quantity of intelligence information on Black Student Unions (BSU) and similar groups which are targets for influence and control by violence-prone Black Panther Party (BPP) and other extremists. The distribution of the BPP newspaper on college campuses and speakers of the BPP and other black extremist groups on campuses clearly indicate that campuses are targets of extremists. Advance information on disorders and violence is of prime importance. We must target informants and sources to develop information regarding these groups on a continuing basis to fulfill our responsibilities and to develop such coverage where none exists.

Effective immediately, all BSUs and similar organizations organized to project the demands of black students, which are not presently under investigation, are to be subjects of discreet, preliminary inquiries, limited to established sources and carefully conducted to avoid criticism, determine the size, aims, purposes, activities, leadership, key activists, and extremist interest or influence in these groups. Open individual cases on officers and key activists in each group to determine background

and if their activities warrant active investigation. Submit results of preliminary inquiries in form suitable for dissemination with recommendations regarding active investigations of organization, its leaders, and key activists. These investigations to be conducted in accordance with instructions in Section 87D of the Manual of Instructions regarding investigations of organizations connected with institutions of learning.

Each office submit by airtel to reach Bureau by 12/4/70, a list of BSUs and similar groups by name and school which are or will be subjects of preliminary inquiries. This program will include junior colleges and two-year colleges as well as four-year colleges. In connection with this program, there is a need for increased source coverage and we must develop network of discreet quality sources in a position to furnish required information. Bear in mind that absence of information regarding these groups in any area might be the fault of inadequate source coverage and efforts should be undertaken immediately to improve this coverage.

A prior inquiry or investigation of a group or individual is no bar to current inquiries and inquiries should not be postponed until submission of airtel due 12/4/70. Initiate inquiries immediately.

I cannot overemphasize the importance of expeditious, thorough, and discreet handling of these cases. The violence, destruction, confrontations, and disruptions on campuses make it mandatory that we utilize to its capacity our intelligence-gathering capabilities.

Above instructions supersede instructions in Bureau letter to all offices 1/31/69, same caption.

Ken Clawson with the Post stopped by my office just before 3:30 p.m. today. He said that he has picked up a "rumor-story" from within the Department to the effect that the FBI did not alert the Department to the extent or the potentialities of the Media theft until after the documents were surfaced. U

Clawson said he is well aware, of course, that the FBI has made no comment whatsoever regarding the Media matter and that only the Department has made statements, but he said he did want the Director to know that he was going to be doing some sort of a story along the above lines. He said also that he wanted the Director to know that he wanted to be fair in his presentation and that he would incorporate into his story any formal statement or any statement without attribution that the FBI might care to make. U

Clawson, as we know, does have quite good and high level sources in the Department; however, it is not known if he has any real facts to proceed with. U

This is a summary of the current status of investigation into the burglary of the Media, Pennsylvania, Resident Agency on 3-8-71, during which FBI material was stolen allegedly by a group calling itself the Citizens Commission to Investigate the FBI. U

INVESTIGATION IN THE PRINCETON, NEW JERSEY, AREA: Stolen FBI material mailed to Senator George McGovern and reporter [redacted] of the Washington Bureau of the Los Angeles Times was postmarked at Princeton, New Jersey. Investigation is concentrated in that area in an attempt to identify those involved. It being noted that two left-wing militants, [redacted]

[redacted] operate the [redacted] Princeton, New Jersey, which is affiliated with the [redacted] headed by Berrigan supporter and suspect in this case, [redacted] Newark has been instructed to utilize all available investigative techniques in order to ascertain the movements of the [redacted] immediately prior to and since the burglary. Efforts are likewise being directed to determine whether the book store has copying equipment readily available. U

XEROX EXAMINATION: Copies of FBI material which have surfaced thus far are being examined by scientists at the Xerox Corporation, Rochester, New York, in accordance with arrangements made by our Buffalo Office. Of that material examined to date (35 documents), all but four documents apparently processed by the Xerox Model 660 Copier. Through the cooperation of the Xerox Corporation, we are canvassing Xerox copiers of this model intensifying our efforts in the Philadelphia, Pennsylvania, and Princeton, New Jersey, areas. Philadelphia has been instructed on a priority basis to locate and obtain copies of documents from Xerox copiers in libraries, schools, etc. to which the subjects may have access. U

[] was reinterviewed on 3/10/71, and voluntarily advised he received through the mail on this date a copy of the statement which was read to him at 7 a.m. on 3/9/71. He furnished this statement and the envelope in which it was received to SA [] and SA []

[] The figures on the back of the envelope were made by [] when he used the envelope as a scratch pad. U

[] was asked if his fingerprints were on file with the FBI and he advised they were not. He agreed to furnish his fingerprints for elimination purposes on 3/11/71 with assurance that the prints would be returned to him. U

On 3/11/71, [] telephonically contacted SA [] advised he had second thoughts about furnishing his fingerprints and now did not wish to do so. Because of his strong views on personal civil liberties, furnishing his fingerprints gave him a very troubled conscience. He indicated he would continue to cooperate with the FBI in furnishing any additional items he might receive. U

[] indicated he hoped to be in center city in the afternoon and would recontact SA [] to again discuss furnishing elimination prints. U

Later on 3/11/71, [] Philadelphia Attorney, telephonically contacted SA [] advised he had been contacted by [] in regard to the press release [] had furnished, our request for a set of his fingerprints, and asked if he could be advised of the reason we desired the prints. Bureau has instructed that sufficient personnel be assigned to all investigation in this matter to insure expeditious handling. U

REQUEST OF THE BUREAU

Will compare the typing specimens in the enclosures with typing specimens maintained by the Laboratory. U

Will check the paper and the envelope used for any identifying marks. U

Will check for any indented writing. U

Will determine if the statement issued by the Citizens Commission to Investigate the FBI is a copy of the original and if so, the type of copies used. U

Will conduct any other examinations deemed appropriate by the Laboratory. U

Will examine the statement issued by the Citizens Commission to Investigate the FBI for any latent fingerprints, compare any found with latents obtained in crime scene search in this case and any other appropriate files. U

Policies of Paranoia

Without in any way condoning the theft of documents from an office of the Federal Bureau of Investigation, one is tempted to ask: who watches the watchman? Little confidence is inspired by the security measures of a security agency whose files can be so easily burglarized.

More disquieting than the bureau's internal security is the evidence, provided via the stolen files, of F.B.I. incursions into political surveillance which far exceed legitimate efforts to protect the national interest. One need not minimize the seriousness of certain violent and lawless episodes in the recent history of student unrest to be disturbed by the F.B.I.'s measures of campus infiltration, especially its apparent stress on surveillance of black students and their organizations. Such procedures assume undertones of latent racial prejudice. With rare exceptions, the protests by Negro students have been concerned with their personal place in the academic community rather than with the revolutionary excesses of the white (or black) radical fringe.

The Justice Department replies that the main thrust of F.B.I. activities has been distorted by the disclosure of only fourteen documents out of a total of 800 taken from the files. This argument offers small comfort to those whose right to privacy is improperly invaded. But even more dangerous are the consequences—clearly intended—that flow from the widespread use of informers. These tactics, said an F.B.I. newsletter, "will enhance the paranoia" among left-wing dissenters and "get the point across there is an F.B.I. agent behind every mailbox."

The dictionary definition of paranoia is "a mental disorder marked by delusions or irrational suspicions." It is difficult to be paranoid over police surveillance which, far from being a delusion, is carried out with such plainly stated intent.

Assistant Attorney General William H. Rehnquist recently denied that political surveillance as currently practiced has a "chilling effect" on free expression of dissent. Apparently the F.B.I., the Justice Department's investigatory arm, disagrees. Could anything be more chilling than the knowledge that the Federal Government allows law enforcement to be perverted into a deliberate

process of spreading fear and suspicion, on the campuses or anywhere else in a society that wants to remain free?

On 3-22-71, approximately 200 people attended a lecture sponsored by the St. Thomas Aquinas Center, UConn, entitled "Radical Resistance: The Berrigans and the Catholic Left. The speakers were ANN WALSH and Father MIKE HUNT, both from Boston University, Boston, Mass. ANN WALSH speaking first, described herself as the coordinator of the New England Chapter of the Berrigan Defense Committee and that she has based at Boston University. She also stated that she was a member of the "New York 8". She attempted to justify the concept of resistance by stating that although people are shocked at indicting priests and nuns for bombing and kidnapping they should not be. People should be shocked at the U.S. Government bombing and kidnapping Vietnamese people.

She then summed up activities of the New Catholic Left and resistance movement since November, 1970. She stated that members of the "Hoover Vacuum Conspiracy" conducted raids on draft boards in New Jersey. She also listed the break into the Media, Penn. office of the FBI. She gave no indication of knowing who exactly was involved in this activity. She stated she supported it because she felt that it is the time people had a right to know what the FBI is doing. She stated since the break-in our telephones have been ringing and FBI agents have been calling up and asking if we would like to talk to them. U

WALSH stated that the Government, in indicting the individuals, chose a cross section of priests and nuns and added an East Pakistani to show that the others in the conspiracy were innocent, sincere people duped by foreign influence. They also had to indict a physicist to show the involvement of so called bomb experts to prove the case. U

FATHER MIKE HUNT spoke briefly following ANN WALSH. He stated that contrary to what some liberals have stated, that is, that the war is a mistake, that the indictments are a mistake, in reality the war is not a mistake nor is the arrest of the Berrigans, it is all part of a determined U. S. Government attempt to repress at home and abroad people who do not agree with this policy. Evidence of this is shown in the Governments attempt to eradicate black leadership in the U.S., that is, BOBBY SEALE and EURICKA HUGGINS and ANGELA DAVIS. U

He stated that the FBI is a secret police used by the Government. He stated that the U.S. Government is acting more illegally than the resistance movement because it is waging an undeclared war and the constitution forbids it. U

NH 100-20708

HUNT further stated that Christian and Catholics must make a decision, to be an American or to be a Christian. All through the ages men have come into conflict with their Governments, and died because of their Christian beliefs. U

A question and answer period followed the talks by WALSH and HUNT. This meeting broke up at approximately 10:20. U

Agents attending the above talks at UCONN were SA [] and [] Efforts were not made by agents to record the talks because of inability to guarantee security of this operation. UCONN security officials did tape the talks and copies of these tapes are being obtained. U

This is in reference to your inquiry of March 31, 1971, wherein you request the period of investigative time covered by the stolen documents. You indicated this would not necessarily coincide with the dates of the documents taken but rather the dates of the incidents or acts which were the subject of the various investigative reports. U

In order to obtain the dates of the incidents or acts which were the subject of the various investigative reports, it would require considerable time and extensive use of manpower, which is already obligated to matters which have been designated as most important by the Department. Such a review would not only have to be conducted in our Philadelphia Office but in all auxiliary offices which conducted investigation in the case. A total of 899 documents is involved. U

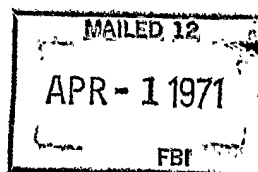

It should also be noted that in many instances investigative activity has been in progress over an extended period of time. This is particularly true in our security-type investigations.

In connection with the copies of the seventeen stolen documents which have been sent to the news media, it is noted that investigative activity therein extends from May 20, 1970, through January 29, 1971. Many of the documents, of course, are administrative in nature and while no specific investigative dates are set forth, extensive investigative activity would be represented. U

In compliance with your request there is attached a breakdown by classifications of those cases which were involved in the theft of documents from the Media Resident Agency. U

It would facilitate the Department's assessment of the above captioned incident to have, as soon as is reasonably practicable, a memorandum which would indicate the period of investigative time covered by the stolen documents. This would not necessarily coincide with the dates of the documents taken but rather the dates of the incidents or acts which were the subject of the various investigative reports.

We would also like a breakdown of the reports by subject matter, i.e., Dyer Act investigations, bombing, arson, etc.

Seven individuals, all of whom have previously furnished information of value to the FBI, have received typewritten letters dated March 31, 1971, from the Citizens Commission to Investigate the FBI. Each has been accused of being an "informer" for the FBI and "perpetuating injustice by continuing . . . activities." It is further indicated that one week after receipt of this communication the name of the recipient will be made public. U

A copy of the above-referred-to document is enclosed. U

The transmittal of these letters through the mail may possibly constitute an extortion violation or a violation of the Obstruction of Justice Statute as well as other Federal laws. U

March 31, 1971

On March 8th, the Citizens Commission to Investigate the FBI removed files from the Media FBI office in Pennsylvania. Your name was listed as an informer for the FBI.

We realize that people inform on others because they feel the government should be made aware of "dangerous" people; we also know that many informers are coerced into informing because of previous arrests, etc. We believe that a system which asks or forces people to spy on their sisters and brothers has no right to exist. You are perpetuating injustice by continuing your activities.

Approximately one week after you receive this letter, your name will be made public as an informer. We are giving you this time to take whatever course of action you wish. Do not expect the FBI to help you as your usefulness to them is over.

If you have been coerced into informing, you have the option of explaining your situation to the people you were working against. We regret that these steps had to be taken. But we are living in times of struggle, and there is not place for treachery in the fight for justice.

RACIAL INFORMANTS

Three documents stolen relate to the development and administrative handling of racial informants. They are: U

Memorandum dated February 26, 1968, from Special Agent in Charge (SAC), Philadelphia Office, to "All Headquarters Agents" captioned "Racial Informants." U

Memorandum dated August 12, 1968, from SAC, Philadelphia, to "All Agents" captioned "Racial Informants, RM." U

Memorandum dated March 29, 1968, from SAC, Philadelphia, to "All Resident Agents" captioned "Racial Informants - Ghetto." U

DECLASSIFIED BY SP1GSK/PMB
ON 2-26-85 App# 80-1227

The contents of the above-mentioned stolen documents consist generally of guidelines concerning the development and handling of racial informants including informants furnishing information on racial extremist organizations and individuals as well as informants in those areas where violence might erupt. The latter mentioned are referred to as "ghetto informants." These documents spelled out the necessity for the development of such informants in order to provide the required racial intelligence information necessary for the Philadelphia Office to fulfill its responsibilities in that field. U

In this regard, it is noted that in a memorandum dated September 14, 1967, to the Director, FBI, from Ramsey Clark, Attorney General, Mr. Clark stated, "In view of the seriousness of the riot activity across the country, it is most important that you use the maximum available resources, investigative and intelligence, to collect and report all facts bearing upon the question as to whether there has been or is a scheme or conspiracy by any group of whatever size, effectiveness or affiliation, to plan, promote or aggravate the riot activity." Mr. Clark also stated in this memorandum, "We have not heretofore had to deal with the possibility of an organized pattern of violence, constituting

a violation of Federal law, by a group of persons who make the urban ghetto their base of operation and whose activities may not have been regularly monitored by existing intelligence sources." He goes on to instruct, "In these circumstances, we must be certain that every attempt is being made to get all information bearing upon these problems; to take every step possible to determine whether the rioting is pre-planned or organized; and, if so, to determine the identity of the people and interests involved; and to deter this activity by prompt and vigorous legal action." U

The contents of these documents reveal quite explicitly the nature of racial intelligence information we were seeking through our informants at that time and the manner in which racial informants could be utilized to obtain this information. It pin-points locations where extremists on whom coverage was desired were known to congregate. U

No specific informants or sources were identified in the above stolen documents. U

NEW LEFT NOTES - PHILADELPHIA

One of the items taken in the recent robbery of the FBI Office at Media, Pennsylvania, was an informal intra-office memorandum. The document was circulated among Agents handling security investigations to bring matters of topical interest to their attention in connection with their work. The item is an informal routing slip to Special Agent [redacted] dated September 16, 1970, and captioned "New Left Notes - Philadelphia." Page one of this document was previously compromised and brought to the attention of the Attorney General. U

b6
b7C

Page two of the document is now compromised and describes internal procedures of the FBI handling certain facets of investigations. For example, it notes that a New Left Events Calendar was to be maintained so that the office would be aware of demonstrations, educational or similar events planned by New Left groups. The use of this calendar would enable the office to know what manpower needs would be needed when such an event occurred. U

Page two of the document also refers to control of informants pointing out in a few instances informants became involved in violence during demonstrations they were covering on our behalf. It was emphasized informants should rise to the maximum level of their ability in order to be privy to everything going on but not personally violate the law. U

This document also notes that when the word Weatherman is utilized in the caption of a security case, the words "Armed and Dangerous" must appear in the communication. The document on page two also refers to the handling of Antiriot Law and fugitive cases and identifies which desk in the Philadelphia Office is handling these cases. U

The document consisted of three pages, two of which have been compromised. It must be assumed the third page is in the possession of the parties who burglarized the FBI Office at Media, Pennsylvania, and will ultimately be compromised. The third page includes a reminder of time limits for completion of fugitive investigations, a summary of Federal firearms statutes and a reminder concerning administrative handling of investigation of individuals who have travelled to Cuba as participants of the Venceremos Brigades. U

~~CONFIDENTIAL~~
COINTELPRO - NEW LEFT

One of the documents stolen from the Media, Pennsylvania, Resident Agency of the FBI was a routing slip to Special Agent [redacted] from Special Agent [redacted] dated August 9, 1968, and captioned "Cointelpro - New Left," which caption is a code word for Counterintelligence Program - New Left. This routing slip advised of a Bureau suggestion that reprints of an article, "Campus or Battleground? Columbia is a warning to all American Universities," be furnished to educators and administrators who are established sources. This article appeared in the May 20, 1968, "Barron's" magazine and was an indictment of the Columbia University riots. (U)

b6
b7C

This routing slip also advised that the article may be mailed anonymously to college educators who have shown a reluctance to take decisive action against the New Left, and it requested that the Bureau be advised of positive results or comments by recipients. At the bottom of the routing slip is written, [redacted] Can you handle Swarthmore, Haverford, Villanova," which refers to schools in the Philadelphia area. (U)

Procedure set forth in this routing slip is the result of Bureau letter to Baltimore and fourteen other offices, including our Philadelphia Office, dated July 29, 1968, which contained those instructions. (U)

There does not appear to be substantial damage involved in the theft of this routing slip or in its subsequent publication in the press. It is already publicly known that the Bureau has sources at institutions of learning. Furnishing information from "Barron's" magazine, concerning campus disruptions and violence, to educators is not a basis for responsible criticism, even when this dissemination is done anonymously. The caption, "Cointelpro - New Left," is not readily comprehensible to the public. Should this caption be deciphered, however, in the press as "Counterintelligence Program - New Left," it is still obviously innocuous within the context of information in the routing slip. (U)

PHILADELPHIA LABOR COMMITTEE

Included among the documents burglarized from the Media, Pennsylvania Resident Agency of the FBI, was a memorandum to the Special Agent in Charge, Philadelphia, from Special Agent [redacted] dated September 24, 1970, entitled "Philadelphia Labor Committee, IS - SDS." The Philadelphia Labor Committee was formerly a faction within Students for a Democratic Society (SDS) and was known as the Philadelphia SDS Labor Committee. It deleted SDS from the title around May, 1970, because of the stigma attached to the SDS in the news media. U

SECURITY INVESTIGATIONS OF
INDIVIDUALS AND ORGANIZATIONS

One of the documents burglarized from the Media, Pennsylvania, Resident Agency of the FBI was a memorandum dated September 16, 1970, from the SAC (Special Agent in Charge) to Designated Employees, captioned "Security Investigations of Individuals and Organizations." This memorandum related to a reorganization of security supervision within the Philadelphia Office and designated desk number 3 to handle "Old Left" matters and desk number 4 to handle "New Left" matters. U

This document related that as a result of a recent inspection the Philadelphia Office was instructed to separate security supervision in order to create a New Left desk and an Old Left desk (The Philadelphia Office was inspected by members of an inspection staff from Bureau headquarters during the period August 7-21, 1970). This memorandum implements such instructions and designates desk number 3 to handle security investigations of individuals and organizations pertaining to the Communist Party, various splinter and Trotskyite groups, as well as the youth groups associated with such organizations. Desk number 4 was designated to handle "New Left" matters relating to security investigations of organizations and individuals with leftist or anarchistic connotations. The document cites as examples of these investigations such matters as SDS (Students for a Democratic Society), STAG, underground newspapers, communes, commune investigations, and the Resistance (antidraft organization). STAG is an abbreviation for "student agitation" and is utilized within the Bureau for purposes of economy and routing. This document also points out that such organizations as the Women's International League for Peace and Freedom and other similar groups should not be considered within the investigative purview of the "New Left" desk. U

Publication of this document will not affect the internal operations of this Bureau to any measurable degree and public knowledge of terms utilized in this memorandum will not compromise either past or future investigative operations of the Bureau. U

PURPOSE:

"The New York Times" 3/29/71 in an editorial captioned "Policies of Paranoia" set forth various observations concerning the burglary of the Media, Pennsylvania, Resident Agency. This editorial stated that the use of informants, according to an FBI newsletter, "'will enhance the paranoia' among left-wing dissenters and 'get the point across there is an F.B.I. agent behind every mailbox.'" With respect to this statement the Director commented: "Let me see copy of this 'FBI newsletter.' H." U

There is attached a copy of the newsletter referred to in the above editorial captioned "New Left Notes - Philadelphia," dated 9/16/70, designated edition #1. U

This newsletter is the subject of a separate memorandum being prepared by the Administrative Division and a copy of this newsletter has been previously furnished to Assistant Director Dalbey in connection with this investigative matter. See copy of memorandum D. J. Dalbey to Mr. Tolson captioned "MEDBURG," dated 3/26/71, copy attached. U

NEW LEFT NOTES - PHILADELPHIA

Edition #1

This newsletter will be produced at irregular intervals as needed to keep those persons dealing with New Left problems up to date in an informal way. It is not a serial and is considered an informal routing slip. It should be given the security afforded a Bureau serial, classified confidential, but may be destroyed when original purpose is served. U

The New Left conference at SOG 9/10-11/70 produced some comments: U

In disseminating reports recommending for the SI it is preferable to designate and disseminate to Secret Service immediately and put the FD-376 (the buck slip, to Secret Service) on the second Bureau copy. U

There was a pretty general consensus that more interviews with these subjects and hangers-on are in order for plenty of reasons, chief of which are it will enhance the paranoia endemic in these circles and will further serve to get the point across there is an FBI Agent behind every mailbox. In addition, some will be overcome by the overwhelming personalities of the contacting agent and volunteer to tell all - perhaps on a continuing basis. b7E

A New Left Events Calendar will be maintained by Squad #4 secretary. When from reviewing underground newspapers, calls from outsiders, complaints or informants we know of a demonstration gathering, educational, or similar event planned by a New Left group, it should be given to SA [redacted] who will coordinate this calendar. He will log it with #4 secretary. This will enable us to project ahead what manpower needs we will have and enable us to answer all kinds of queries about the date we know a particular event is scheduled. It will correlate the knowledge of all. U

"Armed and Dangerous." Remember that every case which bears the Weatherman word in the caption must include the armed and dangerous warning in each communication just as armed and dangerous is carried in criminal cases. U

Anti-Riot Law on 176 classification matters are now handled on desk #4. If they are racial in nature, they will continue to be handled on #9 desk. The basic legal statutes for them are Title 18, Sections 231, 245, and 2101. The Manual of Instructions should be referred to on this topic. U

There are about 30 fugitive cases under investigation in this division where the basic violation grew out of New Left activity. Most are assigned to one agent. They will be reassigned in the near future so that each agent on Squad #4 will have about two of these cases. The

ground rule in fugitive leads is they must be covered at the headquarter city or in the headquarters of the Resident Agency within 15 days, at other locations within 30 days. In the course of pursuing these leads, it is obvious we are going to have excellent opportunity for straight-out interview. There arise informant possibilities at times. U

Much discussion was had about the gun control laws and it was emphasized if we run across a violation of these laws in connection with one of our subjects, there should not be a hasty effort to give it to the ATD. It was said that if possible we should bring these violations to the USA ourselves. U

For a refresher here are five examples of gun control violations of a federal nature:

(1) It is unlawful to manufacture, possess or transport any unregistered bomb, explosive device or Molotov Cocktail. U

(2) It is unlawful to ship or carry interstate any of the above items. U

(3) It is unlawful to possess an unregistered fully automatic weapon (more than one fire with one depression of the trigger). U

(4) It is unlawful to possess an unregistered sawed-off shotgun (this means a barrel less than 18" in length). U

(5) It is unlawful for any convicted felon or mentally incompetent or dishonorably discharged person to possess a weapon carried interstate. The mental incompetency must be the result of a judicial determination. U

A reminder on Venceremos Brigade cases. We are required to follow these cases for at least one year after we have recommended they not be placed on the SI. Ninety-day letters must be submitted for one year after we recommend he not go on the SI. U

The Director circulated an editorial, "What Is The FBI Up To," from the "Washington Post" March 25, 1971, and a news story from the same newspaper on March 24, 1971. He said "Attached is what I want to be looked into. Find out where & by whom such 'agents provocateur' activities were ordered. H. " U

My review of this material shows three references in the "Washington Post" to allegedly official FBI documents. Those are as follows quoted from the news story in the March 24, 1971, issue: U

1. "One of the documents encourages agents to step up interviews with dissenters 'for plenty of reasons, chief of which are it will enhance the paranoia endemic in these circles and will further serve to get the point across there is an FBI agent behind every mailbox. U

"In addition," continues the Sept. 16, 1970, document, 'some will be overcome by the overwhelming personalities of the contacting agent and volunteer to tell all - perhaps on a continuing basis.'" U

2. "In the FBI document dated Sept. 16, 1970, an apparent reference is made to student agents: U

3. "One of the stolen documents indicates that black student groups on campuses were to be under surveillance by the FBI. The Nov. 4, 1970, memorandum, issued by FBI Director J. Edgar Hoover, said in part. U

"Increased campus disorders involving black students pose a definite threat to the Nation's stability and security and indicate need for increase in both quality and quantity of intelligence information on. . . (such) groups which are targets for influence and control by violence-prone Black Panther Party (BPP) and other extremists." U

The "agente provocateur" instructions to which the Director referred are contained in numbered items 1 and 2 above, referred to in the "Washington Post" as an "FBI document." It is not an official FBI document. It is an informal memorandum entitled "New Left Notes - Philadelphia, 9/16/73, Edition #1," a copy of which was found by the burglars in the Media, Pennsylvania, Resident Agency. The copy bears the name [REDACTED] rather obviously referring to SA [REDACTED] who was in the Media Resident Agency. A Photostat copy is enclosed as attached Exhibit #1, and a retyped copy for better legibility is attached as Exhibit #2. U

The "agente provocateur" document described immediately above speaks of enhancing the "paranoia" endemic in New Left circles and makes reference to getting across the point that "there is an FBI agent behind every mailbox." U

Memorandum to Mr. Tolson
Re: MEDBURG

My telephonic inquiry of SAC Jamieson in Philadelphia on 3/25/71, produced the answer that the referenced document was written by SA [] the supervisor of Squad #4 (Applicant and security matters) in the Philadelphia office. [] is a veteran who entered on duty 2/16/48, and is now in Grade GS-14, 1970 Annual Performance Rating "Excellent." [] as of 3/25/71, was upstate Pennsylvania conducting an important interview on EASTCON and is due back in Philadelphia at noon on Friday, 3/26/71. SAC Jamieson said [] would submit his explanations today 3/26/71. U

b6
b7c

SA []'s reference, in numbered paragraph 2 above, to the Director having OK'd Potential Security Informants and Security Informants in age 18 to 21 apparently is based on SAC Letter 70-48 (C) dated 9/15/70 which, in turn, is based on a September 2, 1970, memorandum from Mr. Felt to Mr. Tolson re "Security Informants, Racial Informants," both attached. These two documents gave official Bureau approval for developing informants in the 18 to 21 year group. In the Felt to Tolson memorandum, the Director said "OK but I want any between 18 & 21 yrs. to be approved by Aoyers also. H." Numbered item 3 above does refer to an official FBI document. This is the attached airtel from the Director to SAC, Albany, and other SACs dated November 4, 1970, re "Black Student Groups on College Campuses, Racial Matters." Also attached are the yellow file copy of that airtel and the memorandum of November 8, 1970, from Mr. Moore to Mr. Brennan, same caption, on which approval was granted. U

RECOMMENDATION:

That Administrative Division prepare a separate memorandum concerning administrative action to be taken against SA [] on receipt of []'s explanation. U

Assistant Attorney General Mardian, Internal Security Division of the Department, advised me he had received a call from [redacted] of the Department. [redacted] "New York Times" representative in Washington, had called [redacted] stating additional material had been delivered to him, purported to be part of the theft of documents taken from the Media Resident Agency. It was sent to him in an envelope from a group known as "Resist" and it was mailed at Cambridge, Massachusetts. **U**

Mardian desires we contact [redacted] and attempt to get the material. [redacted] had indicated he did not want to call the FBI concerning this matter. **U**

Mardian said he is getting fed up with the newspapers publishing this material. He feels legal action should be taken against these groups as it is a violation of the law, and he is taking the position that the Department should go on the affirmative and try and stop such release of material. He went on to say these are the people who are talking about invasion of privacy and so forth and they are trying to attack the Bureau through this means. He said that the Bureau's excellent reputation and accomplishments are without precedent and he is hopeful he will be able to take some affirmative action. **U**

I am amazed at Mardian's concern! H
ACTION: If approved by the Director, we will contact [redacted] and State the Department has instructed us to obtain material which [redacted] has received relating to the above-entitled matter. **U**

Specimens received from Newark, 4/1/71 DATE 6-25-84 BY SP5 RJG/PMB

The following items were listed in Laboratory report to Newark dated 10/6/70, Bufile 25-615552: U

- Q2 Piece of brown cardboard bearing notations in black ink U
- Q3 Small piece of white cardboard with gold back, bearing notations in blue ink U
- Q4 Black diary type book with handwritten and hand printed quotations, verses, sayings, etc., and five clear plastic envelopes containing miscellaneous notes, letters, and a business card of [redacted] Attorney at Law U
- Q5 Manila envelope containing various personal papers and identification and miscellaneous papers found on [redacted] and one clear plastic envelope containing a piece of yellow lined paper with penciled notations U

b6
b7C

- Q7 Ryder Rental Contract #787945, bearing name [redacted] U

Result of examination:

It was determined that the typewriter impressions on the note at the bottom of Q18 and similar copies were not prepared on the typewriters used to prepare Q1 and Qc2. These typewriter impressions are too limited to determine the make and model of the typewriter used. The significance of the contents of the note was not determined. The hand printing on the note is possibly distorted and is not sufficiently comparable with the hand printing on Q48 and Q49 for meaningful comparisons to be made. U

SUBJECT: NEWS REPORT ALLEGING BERRIGAN CASE

0 MEDBURG

Reference is made to the attached copy of a letter to the Attorney General advising him that there was no basis in fact to the information contained in a newspaper article which reported that a significant part of the Government's case against the Harrisburg Six was among the documents taken from the FBI's Media Office on March 8, 1971. Mr. Donahoe instructed that SAC Jamieson of the Philadelphia Office be contacted and his assurance obtained that it was proper to so advise the Attorney General. I personally called Jamieson immediately and he advised me that immediately after and ever since the burglary of the Media Resident Agency, the Philadelphia Office has exhaustively researched every existing record relating to the Berrigan case, and they have found absolutely no evidence of any correspondence or other records relating to the case having been among the material taken in the burglary. Jamieson said that on the basis of his records, it is proper to so advise the Attorney General as set forth in the attached letter. *U*

[redacted] had been previously alerted to the possibility of such a contact and immediately notified our Philadelphia Office. The letters are being forwarded to the Laboratory for examination and investigation is being intensified in an effort to establish where in Philadelphia they were mailed. The Internal Security Division of the Department is being advised of the above. U

COMMUNIST PARTY INTEREST IN STOLEN FBI DOCUMENTS: [It had previously been reported by both our New York and Philadelphia Offices that Communist Party functionaries in New York had contacted their associates in Philadelphia requesting an attempt be made to obtain copies of stolen FBI documents, presumably from Muhamad Kenyatta, Philadelphia head of the Black Economic Development Conference.] This aspect has been followed closely. Informants who are in a position to observe such activity are on the look-out for same, but no further information has been developed and no pertinent activity has been noted. X

Cambridge, Massachusetts, known as "Resist." This group has publicly stated they have received copies of the stolen documents from the Citizens Commission and are acting as an intermediary in the distribution of the documents to various newspapers in the Boston area. Boston is conducting a physical surveillance on "Resist" Headquarters in order to be in a position to take appropriate action should the Internal Security Division indicate legal remedies are called for. **U**

CONTINUING SURVEY OF XEROX EQUIPMENT: Since the Xerox Corporation has indicated many of the copies of stolen FBI documents bear distinctive markings which may allow identification of the copier which was used to prepare them, we have intensified our efforts, primarily in the Philadelphia, Pennsylvania, and Princeton, New Jersey, area to identify this machine. Since many of the Xerox machines are rented to individuals on campuses and in churches and libraries and other organizations not friendly with the FBI, arrangements have been made for Xerox personnel to make sample copies during servicing of this equipment, furnishing same to FBI for examination. **U**

Re: Bureau teletype 3/31/71 and Buffalo teletype,
3/31/71.

Pursuant to Bureau instructions, Buffalo is sending by telecopier to the above offices a facsimile of defective xerox copies. Two transmissions will be made for New York and the second copy should be carried to Newark Office as telecopier in Newark Division is not operational. **U**

Facsimile consists of eight samples showing unique dot imparted by document drum on Xerox 660 machine used to reproduce original documents. The dot is located at the point of the arrow, the dot can also be located by measuring four and one half inches from the left side of the paper and between one quarter to one half from bottom. **U**

Offices obtaining copies from machines in your division should use ten and one half inch paper, the standard size used by the Bureau, as the original with a notation as to the machine and serial number and use eleven inch paper in the supply tray to reproduce as the copy. This enables the drum to imprint the defective dot on the copy. **U**

The following summarizes current developments in the investigation involving the theft of FBI documents from the Media Resident Agency (RA), Philadelphia Division, during the night of 3-8-71.

COMMUNIST PARTY (CP) ACTIVITY TOWARD OBTAINING COPIES OF STOLEN DOCUMENTS:

As previously indicated, [redacted] had been in contact with [redacted] during which time discussion was had concerning obtaining copies of the stolen documents. It was indicated these documents would be obtained Saturday, 4-3-71, from Muhammad Kenyatta, Philadelphia Black Economic Development Conference leader, who had publicly announced he had received copies of such documents. All CP informants have been alerted and physical surveillance, where appropriate, is being utilized to cover this transaction if it does, in fact, take place. Internal Security Division has been alerted as to this aspect.

[redacted] CONTACTED BY "COMMISSION:" As of late 4-2-71, [redacted] have been contacted by mail by the Citizens Commission. Each has been advised of [redacted]

All letters appear identical and have been transmitted on pre-printed, stamped envelopes. [redacted] have been realerted as to these contacts and given instructions how to preserve evidence should a letter be received by them. Documents received thusfar are being examined by the Laboratory at this time. Recording devices have been installed on the home telephones of [redacted] with their permission in the event direct communication is attempted by the subjects.

In connection with the most recently surfaced stolen FBI material, it should be noted that we have obtained copies of the ten documents in question from the Chicago Bureau of the "Los Angeles Times." These documents are being analyzed by the Laboratory, as well as the Identification Division, and compared with previous material which has been submitted. **U**

Today's issue of the "Washington Post" indicates that the "Post" was furnished a packet of the current documents. Since these documents are of value from an evidentiary standpoint, they may contain latent fingerprints, and we may be able to determine the type of typewriter used, the Xerox machine used, etc., it would be well to obtain these documents from the "Post." **U** *REC-110* *52-94577-489*

ACTION: If approved, Washington Field Office will be instructed to contact the "Washington Post" and obtain the documents in question. **U**

SAC Jamieson, Philadelphia, advised that in connection with the investigation into captioned matter, considerable surveillance activity is taking place with respect to a number of suspects. These individuals are extremely surveillance conscious; and in order to assist Philadelphia in conducting these surveillances most discreetly, he requests they be allowed to utilize MAST units. U

These units are a radio device which can be attached to a suspect's car and emit a "beeping" sound over our radio networks. They do not in any manner broadcast voice transmissions; but with the use of these "beeping" devices, surveillance cars can follow a suspect's car at greater distances, thus insuring the discreteness of the surveillance. U

ACTION: That the Philadelphia Office be authorized to utilize MAST units in connection with their surveillance operations. U

Enclosed for Newark are items Q15, Q51, and Q67 which were reported by Kerox Corporation examination as having been reproduced by Olivetti Underwood copying machines. Newark through sources at Olivetti Underwood, Englewood Cliffs, New Jersey, attempt to ascertain make and model copying machine used in reproducing these copies. Also attempt to determine if these copies have any individual markings which might associate the material with a specific copying machine should appropriate known specimens be obtained. Upon completion, these items should be returned to the Bureau marked for the attention of the Laboratory. U

On 4/5/71 the Chicago office of the Los Angeles Times received through the mail copies of 10 documents stolen from the Media Resident Agency. Copies were obtained and sent to the Bureau. The 4/6/71 edition of the Washington Post contained an article partial contents of comments on Bureau documents which they claim they received in the mail 4/5/71. From a review of the article, it appeared the Post received the same packet of documents as those from Chicago. Nine of these documents pertained to the work of the Domestic Intelligence Division and have been the subject of a separate memorandum prepared by that Division. U

The tenth document which had not previously been known to be stolen is a memorandum dated 3/2/71 to the Special Agent in Charge, Philadelphia, from SC (special clerk) [redacted] which relates that at 10:15 a.m., 3/2/71, [redacted] called the Philadelphia Office and advised he might have information pertinent to the Capitol bombing. [redacted]

[redacted] He described [redacted] as [redacted] and said [redacted] is a sympathizer with the Berrigans. U

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 6-25-84 BY SP5 RJG/PMB

Attached to the above memorandum was a sheet of longhand notes of the investigating Agent who interviewed the complainant and determined he had nothing specific regarding [redacted] No further investigation of [redacted] was conducted. U

A copy of the above memorandum and the attached notes have been furnished to the Attorney General as being copies of stolen items. U

Since this merely records the taking of a complaint from a man who voluntarily contacted the FBI there is no way in which it can be considered to be embarrassing or damaging to the Bureau. Therefore, there is no reason to further advise the Attorney General. U

Original of envelope, address "Senator GEORGE MC GOVERN" PM 3/19, Princeton, New Jersey. No Xerox copies enclosed as not conducive to Xeroxing. U

All of the above enclosures were furnished on 3/22/71, to SA [] by [] Legislative Assistant to GEORGE MC GOVERN, U.S. Senator, South Dakota. b6 b7C

[] stated that the enclosures were received in the Senator's office through routine mail channels at the Old Senate Office Building at about 3:30 p.m., instant date. He stated he is not certain whether the enclosed envelope is the envelope in which the documents were sent; however, believed it to be and could locate no other envelope with the mail or elsewhere. Subsequent to the furnishing of the above, [] telephonically contacted WFO and advised that his office had inadvertently furnished a Xerox copy of the letter from the Citizens Committee to Investigate the FBI and retained the original. He stated that his office was closed, but the original could be obtained after 9 a.m., 3/23/71. U

REQUEST OF THE FBI LABORATORY

1. Upon receipt of original letter from Citizens Committee, attempt to determine make of typewriter, make of ribbon, kind of type, and any other identifying characteristics of letter. U
2. Compare printing on enclosed envelope with any printing on documents previously submitted in this case. U
3. Upon completion of tests will forward all documents to FBI Identification Division for processing for latent fingerprints U

**BURGLARY OF THE FBI RESIDENT
AGENCY, MEDIA, PENNSYLVANIA
MARCH 8, 1971
THEFT OF GOVERNMENT PROPERTY**

This is submitted in reference to your call to Mr. W. C. Sullivan advising of the contemplated grand jury action in connection with this case. In this connection, you indicated that you desired the FBI to contact any newspaper which has published or will publish data taken from the stolen documents in an effort to solicit the cooperation of these newspapers in furnishing the copies of the stolen serials sent to them. U

It has been observed that those newspapers which will cooperate in furnishing copies of stolen documents have, on their own initiative, contacted our field offices advising of the receipt of the documents and offering to make them available. Contacts with other newspapers which have published data from these stolen documents but have not called our field offices have determined they will not cooperate in furnishing the documents received. U

In view of the open hostility displayed by some of the newspapers in this matter, the FBI will not contact those which have not voluntarily advised us of their receipt of the stolen items. You may desire, therefore, at such time as a grand jury is convened, to consider the issuance of subpoenas for such newspapers, the identities of which will be furnished to you if desired. U

For the information of offices not receiving prior communications in this matter, the Union of American Exiles (UAE) was formed in Toronto, Ontario, during April, 1968, by a group of United States draft evaders, to assist other draft evaders with housing, jobs and social contacts when coming to Canada. To date, there has been no evidence of infiltration by members of the subversive movement and the UAE appears to have remained non-political. The UAE has on occasion taken part in protests and demonstrations to condemn United States action in Vietnam and its treatment of war dissenters.

In connection with the documents stolen from the FBI Resident Agency (RA) at Media, Pennsylvania, on the night of March 8, 1971, a total of 744 items have been forwarded the Department in conjunction with the request by the Attorney General dated March 23, 1971. *U*

Our Philadelphia Office has indicated a total of 932 items were missing. A painstaking review of the files now reveals that 33 items initially thought to have been stolen were not. A break-down of the stolen documents is as follows: *U*

899 Total items stolen

163 This group consists primarily of routing slips, recent interview report forms not yet in file, other forms, et cetera. No copies of this data are maintained either at Philadelphia Headquarters or at the Bureau. Many of these documents would normally be destroyed after their usefulness has been served.

This is to report current developments. []

Departmental Attorney, Internal Security Division, assigned to the above case on the afternoon of 4-2-71, advised that after considerable study there was little likelihood that any grand jury action would be taken in this case at this time. It was definitely decided not to take injunctive action to prevent further disclosures of the contents of FBI documents since there was no legal ground for such action. *U*

It was assumed to ever have considered D. H.
The possibility continues to exist; however, according to [] that should the occasion arise, consideration will be given to utilization of search warrants in furtherance of this investigation. [] added that a primary target here would be "Resist," the militant antiwar Cambridge, Massachusetts, group which has acknowledged channeling copies of stolen documents to the press. In []'s opinion, however, such action would not be warranted unless the Government was reasonably assured of obtaining productive results. *U*

Research is continuing by attorneys in the Internal Security Division as to whether the Theft of Government Property and related statutes as well as the Espionage Statute could be applied with respect to the possession of copies of the stolen FBI material. He advised there was little previous law on this subject and it would be difficult to show copies of stolen documents would constitute Government property in themselves. *U*

Certainly said. H
[] also indicated Department's thinking had not been finalized in connection with the foregoing; however, at this time it did appear that this would be the Department's position with respect to legal action in this case. [] was assured that the FBI was conducting an exhaustive investigation to identify those responsible for the offense and that he would be kept apprised of pertinent developments. *U*

ACTION: None. For information.
